

December 6, 2007

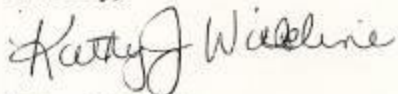

Dear Future Customer of Precision Painting,

We are thoroughly pleased with the work done in our home by Precision Painting. First, Chad met with me and itemized each section that I wanted to be painted. All details were clearly stated in our contract. Then Chad was extremely helpful and patience as we worked through different color possibilities. The final selections are wonderful and really make our house look updated. It turned out even better than I envisioned.

His crew was very professional. They were attentive to detail in painting and clean up. Also, they were extremely diligent, and our entire main level, including a high ceiling entrance, was painted in one short week. Importantly, they kept our carpeting free of paint drips.

I have no reservations about recommending Precision Painting to any homeowner. In fact, we're planning on contracting with them again.

Sincerely,

Kathy J. Wickline
