

DEVONSHIRE REALTY

To Precision Painting,

The transformation of our house was amazing! Thank you so much for doing such a wonderful job of painting our home!

I wanted to write and say how impressed we were with your company in every step of this process! First, the assistance you gave us in picking the right colors for our house was great. The computer program to show the house in different shades of color was helpful. You were so patient with putting up the color swatches and letting the whole family deliberate. The prep work was so detailed and thorough. I really appreciate that you pointed out some issues with our deck railing that ultimately saved us money. The two young men that worked at our house were terrific! They arrived on time, put in a full days work, kept everything nice and neat while working and cleaned up each day after work. I haven't found any paint where I shouldn't find paint. We have hired other companies in the past and I could not say these same things about them!

I would recommend Precision Painting to any homeowner that is in need of a facelift for their home.

Thank you again!
