Recommendation for Chad Ebbert and Precision Painting

June 27, 2006

To Whom It May Concern:

One day last Fall the doorbell rang and standing on the stoop was a young man no older than my nephew offering his services to paint my home and stain the deck. I was tempted to dismiss him as we had already contacted another painting service for an estimate but his energy and perseverance won out and in the end we decided to go with Precision Painting for the job.

What a fantastic decision! Not only was the job completed on time but Chad and his entire staff were competent, professional and diligent, and more importantly, they treated our property with the utmost respect. I was so happy with the exterior work that I subsequently hired them to paint two interior bedrooms and to strip the wallpaper and apply a fresh coat of paint to the master bath, no easy feat!

I could not be more please with Precision Painting in general and Chad Ebbert in particular and will definitely use them in the future. I recommend them without reservation.

Sincerely,

James Zager
