

Summer, 2007

To Whom It May Concern:

I would like to take this opportunity to highly recommend Precision Painting. Chad Ebbers and his crew were very professional in their work and did a great job of painting our home. Chad went out of his way to be certain that our home would be finished by Memorial Day so that we could have a Graduation party outside. Many people at the party commented on how nice our home looked and we were glad to say that Precision Painting was the reason. We will not hesitate to call Chad again for other painting jobs that may come up at our home. Thanks for a job well done!
