Re: Stellar Job!

Chad-

Simply can't begin to thank you and your crew for the fantastic job on our house!

I was immediately impressed by your process from Day One, when you showed up within hours of my first call, and the bid appeared in the mail the following day; needless to say, you beat the pants off three of your competitors right from the start.

Your assessment was thoroughly articulate, informative, and extremely competitive; your crew was meticulous, courteous, and thoughtful throughout the entire prep and painting schedule, and we just couldn't be happier with the finished product; give us a season to get our landscape in order and we'll be showing up in a few magazine spreads for Mid-Century Mod architecture!

Again, thank you for an outstanding job, and please pass our gratitude on to your crew.

Sincerely,

andy warfel
